INTRODUCING THE NISSAN STORE

For Nissan, advanced connectivity is the key to creating a driving experience completely tailored to you and your needs.

The Nissan Store is your central hub to find a range of services that optimise convenience, security, and entertainment.

Some of the services are free, and some are paid for. You'll find this clearly defined within the store, and paid-for items will require you to securely enter your debit or credit card details. This means you'll never encounter any unexpected costs.

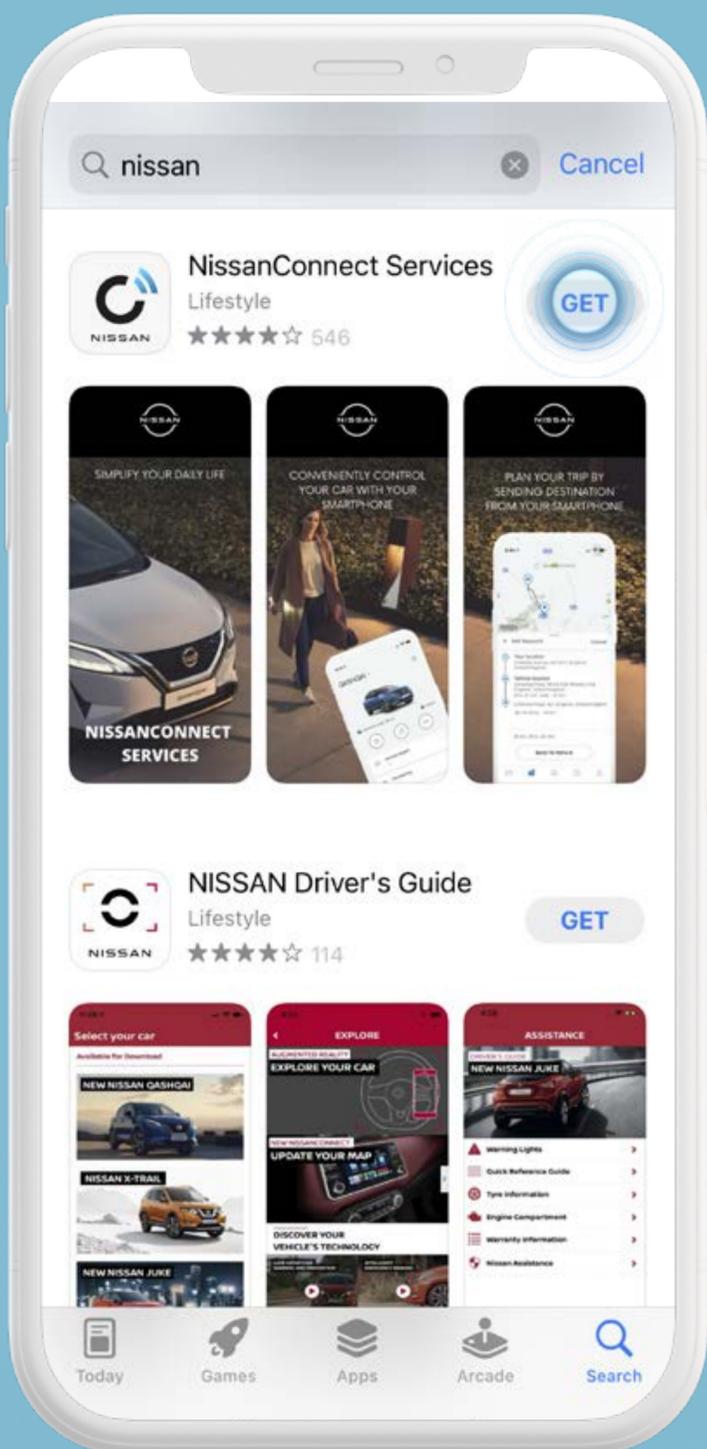

Compatibility of these services will depend on:

- The year and model/grade of your Nissan vehicles.
- Your smartphone model and software.

Nissan Store services are available depending on country, model, grade and service period. Some services will be subject to a fee for the subscription period detailed in the NissanConnect Services app. For more information, please visit your NissanConnect Services app, Nissan website, Nissan dealer or call center 0330 123 1231
